Circular No. : 2

Date: **12-04-2024**

Dear Parents,

Our new session has begun with flying colours and the presence of our tiny tots has made it more merrier.

Learning about colours helps children to sort, organise, categorise, and compare objects. Early identification of colours helps them to create a cognitive link between visual clues and words and improve their ability to communicate and express themselves.

Keeping this in mind we are celebrating **Yellow Colour Day** on Thursday, 18<sup>th</sup> April, 2024.

Please send your ward in any yellow coloured dress on this day and also send some yellow coloured snacks in their tiffin.

Related activity will be done in the class.

**Principal**
